

CONFIDENTIAL MEMORANDUM

To: Elizabeth Palombi, Intellectual Property Manager
From: Matt Ewert, Drs. Phil Amuso and Andrew Cannons *ME., P.A. AEC*
Subject: Prior Art References Related to U.S. Patent Application for "Early Detection of Pathogens in Blood", USF Ref. No. 02A037PRC
Date: December 15, 2003
Via: Hand delivered by Matt Ewert on 12/15/03

Pursuant to your memo of November 18, 2003 and in accordance with United States patent law specifying that each inventor disclose to the USPTO any papers, patents, or other information related to claims specified in the above-referenced patent application, the following literature citations are provided. Please find the attached front page copies of each paper providing abstracts, author lists, and publication tracking information.

Thank you for your contributions to this effort.
